

## TAP line

Article Number: 49-200975-028

<b>Product Range</b>	Safety storage cabinet
<b>Product Category</b>	Type 90 - flammable liquids

The TAP line Type 90 from DÜPERTHAL is specially designed to remove media from canisters and small drums. This allows more flexible work processes and a more efficient organisation of the internal value chain. This effectively leads to the release of resources, which can be used actively and on a results-orientated basis for scientific research.

- **Technical ventilation**

Object extraction during filling and ventilation in each cabinet level.

- **Safety**

Safe media extraction from canisters and drums into smaller containers in accordance with TRGS 509 (active storage).

- **Working safety**

Conductive powder coating as a standard and integrated earthing system according to TRGS 727.

- **Monitoring with DÜPERTHAL connect**

Including hardware for monitoring fill level and prepared for online use of monitoring data in the DÜPERTHAL connect app.
