Product Range Safety storage cabinet

Product Category Type 90 - flammable
liquids

The SUPPLY line Type 90 from DÜPERTHAL is specially designed to safely remove media from drums. This allows integration into present process chains and a more efficient organisation of the internal value chain. All SUPPLY line cabinets have a wide range of additional functions that make working easier and safer.

- **Technical ventilation**

Ventilation and exhaust air monitoring minimise the explosive atmosphere when filling.

- **Safety**

Secure media supply and integration into the process chain in accordance with TRGS 509 (active storage).

- **Working safety**

Conductive powder coating as a standard and integrated earthing system according to TRGS 727.
